START

EMERGENCY AID FOR CHILDREN

“We want that traumatic experiences don’t become obstacles for the healthy development of children and their wellbeing; we want to contribute to creating the conditions for building resilient communities and peace.”

- We started working in 2006...
- More than 150 missions (Lebanon, Georgia, Haiti, Libya, Philippines, Nepal, Tunisia, Turkey, Ukraine, Iraq, Madagascar, Germany, Greece, etc.)

WHAT WE DO

- Direct intervention (Humanitarian and emergency interventions)
- Community work
- Professional trainings
- Collaboration with governments, educational institutions, national and international organizations and universities.
- Research and publications.

Holistic and interdisciplinary working approach

- Therapy
- Pedagogy
- Art
- Social interactions

Trauma: an invisible
wound...that
produces visible and
measurable effects.

Particularly children
are at risk.

Importance of early
interventions.

“The body as instrument of
the soul.”

New challenges

- Transfer of trauma across generations.
- Secondary stress disorder.
- Transfer of trauma dynamics to organizations/systems.

Individual level

Society level

Reframe the subject.

Knowledge on trauma dynamics and resilience strengthening approaches need to become part of the basic knowledge of all (especially those working in the educational sector).
